Summary

Software developer with full-stack experience who loves tackling real-world challenges, my goal is to enhance my skills in full-stack development. And want to continuously learn new technologies and contribute to a collaborative team environment.

Experience

Software Developer, Munir Sukhtian Group (MSG)

- Design and develop specialized business reports to support operational and management needs. Integrate reporting systems with Sage ERP to retrieve and process business data.
- Develop and maintain software solutions to improve reporting accuracy and business workflows.

08/2026 – Present
Amman, Jordan

Software Developer, Siq Technology

- Developed and maintained Healthcare Information System (HIS**)** web applications using Java, Spring Boot, and REST APIs, supporting core hospital operations such as patient management and clinical workflows.
- Integrated the HIS with Jordan Hakeem national healthcare system and ISTD JOFOTARA Electronic Billing System, ensuring compliance with healthcare data exchange and financial regulations, and improving interoperability between systems.

02/2025 – 08/2026
Amman, Jordan

Fellowship, Tech for Jobs

- Participated in the Tech for Jobs initiative, enhancing career development and technical skills in underrepresented communities.
- Collaborated on real-world projects using emerging technologies to solve business challenges and improve job readiness.

12/2024 – 03/2025
Remote

Software Developer, JoVision

- Designed and developed projects, including the Avicenna Microscope App, leveraging AI and React Native to analyze cell images for cancer detection.
- Gained hands-on experience with technologies like React Native, ASP.NET API, Azure API, and Azure Cosmos DB.
- Enhanced system performance and usability by delivering new features and improving app functionality.

02/2024 – 02/2025
Irbid

Internship, JoVision

- Built foundational skills in React Native by developing interfaces, debugging, and integrating APIs.

08/2023 – 02/2024
Irbid

Projects

LMS - Learning Management System, Tech: Spring Boot, React, MongoDB

- Developed a comprehensive learning platform with course management, user progress tracking, and authentication using JWT.

Quiz Application with Social Features, Tech: React Native, Spring Boot, SQL

- interactive quiz application with multiple-choice questions, scoring system, and friend request functionality. Designed backend services using Spring Boot and implemented real-time user interaction features.

Technical Skills

Spring Boot, Java, React Native, JavaScript, HTML, CSS, SQL, ReactJS,
C++, Docker, Oracle Database, Apache Kafka

Soft Skills

Interpersonal

- Teamwork & Collaboration, Time Management, Time Management, Creativity, Communication, Leadership, Mentoring

Education

Bachelor's in Software Engineering, Jordan University of Science and Technology

09/2019 – 02/2024
